

Enterprise Mobile Deployment and Management Assessment

We'll Assist You...

Avoid Common Pitfalls

Eliminate Post-Launch "Unknowns"

Discover TCO Savings

About the Engagement

Whether you are just starting or already deeply engaged in the lifecycle of an enterprise mobile deployment, there are a variety of challenges you are facing. Level 10 works directly with retailers to aid in the evaluation of that process helping to assess where they are at, how to avoid common pitfalls, eliminate post-launch unknowns and discover TCO savings.

Our Enterprise Mobile Deployment and Management Assessment is a 1-2 day engagement that brings together our mobile experts with your company's stake holders to cover the entire mobile ecosystem with the deliverable of a written

assessment & recommendations document that answers your questions, but is not limited to: Use Cases, WiFi, Broadband, Network, Application Development, Security, Hardware Selection, Hardware Procurement, Mobile Device Management, Staging, Deployment, and Ongoing Support.

Deliverables

The engagement discussion points and written assessment covers:

Less Partners to Do More
Post-assessment, our staging, integration and deployment teams will execute to plan.

Device Applications	Vendor Shortlist	Peripheral Management	Charging	Locations
Device Communications	Application Management	Loss of Device	Wi-Fi Frequency & Security	Use Criteria
				Documenting Results
				Success/Failure Matrix

About Level 10

Level 10 is one company, everything IT. With increasing IT challenges, we recognize retailers need less partners to do more. By strategically bundling our services--*hardware procurement, software development, asset management, maintenance, field technician support and service desk support*--we act as an extensions of retailers' IT teams throughout their technology & mobile deployments, store openings/closing/remodels, and in-store support work.
