

Reduce Downtime. Speed Up Service. Lower QSR Technology Costs.

Zebra, Elo, and Level 10 help Quick Service Restaurants modernize operations with rugged devices, self-service solutions, and scalable deployment services designed for the realities of high-volume environments.

| THE REAL COST OF “CHEAP” TECH

Consumer-grade devices cost more than you think.

In a QSR environment, device failures don't just impact IT, they impact speed of service, order accuracy, labor efficiency, and customer satisfaction. With Zebra and Elo solutions deployed by Level 10, QSRs can reduce downtime, simplify device management, and create a more reliable guest experience from front counter to kitchen.

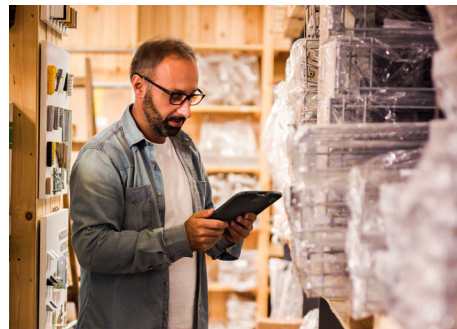

BUILT FOR MODERN QSR OPERATIONS

Front-of-House

- Self-service kiosks
- Line busting
